

The **CAPRI 2.0** The beautiful door

WELL DESIGNED. WELL BUILT. WELL APPOINTED.

Vista

PATIO DOORS INC.

Creating products that we are proud to manufacture and you will be proud to own.

DURABLE. ELEGANT. **BEAUTIFUL.**

When you combine forward thinking design with superior components and uncompromising attention to detail, the result is an amazingly superior product.

WE INTRODUCE YOU TO CAPRI 2.0

With standard features that are not found on other products and a wide variety of options that will make your CAPRI 2.0 uniquely your own, we invite you to compare this truly remarkable door system to other competitive products.

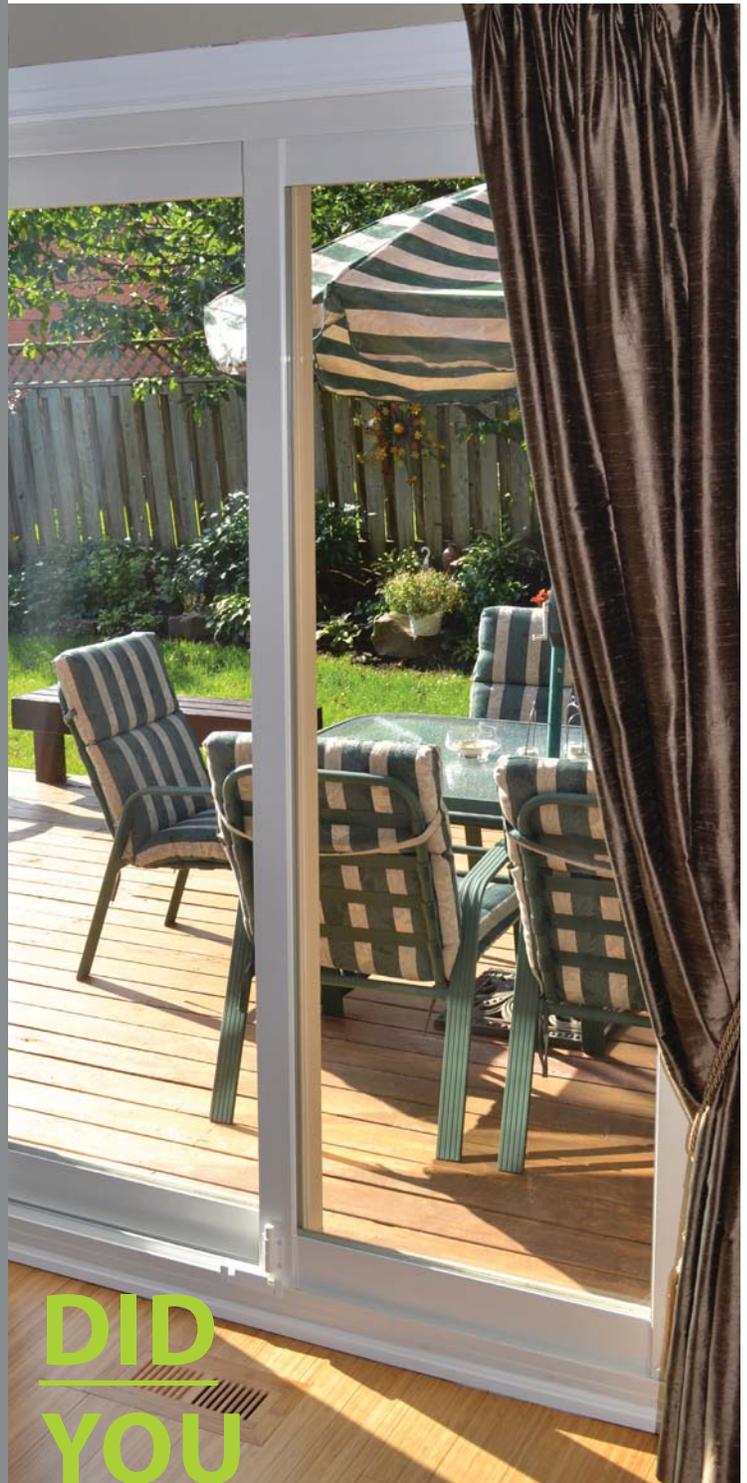

Built with your satisfaction in mind, CAPRI 2.0. Beautiful!

////////////////////////////////////

THINGS YOU SHOULD KNOW ABOUT YOUR CAPRI 2.0

- ▶ 5 7/8 Frame Depth
- ▶ All Vinyl Multi-chambered mechanical frame
- ▶ Oversized mechanically fastened sashes
- ▶ Noise reducing soft touch fin to ensure quiet operation
- ▶ Smooth gliding precision tandem rollers in customer's choice of metal or nylon.
- ▶ Flush mounted screw covers at sash screw ports to create a cleaner appearance at interlock
- ▶ Interior and exterior pocket covers to mask installation screws
- ▶ Standard twin point lock, with anti-slam feature, and designer euro style handle with interior and exterior pulls
- ▶ Superior 2" x 1/2" screen with adjustable metal rollers, lock with pull handles and heavy-duty zinc keeper
- ▶ 1" Endur low e and argon insulated glass units backed by a lifetime warranty
- ▶ 5 Brick molds, 5 vinyl jamb extensions, wood and foam board extensions cut to size
- ▶ Transoms and Sidelites that integrate seamlessly with CAPRI 2.0
- ▶ 100's of standard paint colours (colour matching is also available)
- ▶ 10 wood grain coatings to choose from.
- ▶ And finally, the most comprehensive warranty in the business.

DID YOU KNOW?

*"Every **CAPRI 2.0** is made to order. We do not begin producing your door until your dealer orders it."*

IT'S ALL IN THE DETAILS

Paint and Wood Grains

Paint

Choose from hundreds of standard colours from major manufacturers colour palettes or use our colour matching service to ensure a colour that will best suit your decor. For details ask your dealer. (Please go to the brochure cover for an example of a painted door)

Wood Grain

The innovative Tru-Stain coating system allows you to enjoy the performance of vinyl with the look of wood. The Tru-Stain process also allows for exterior coating not possible with traditional laminated wood grains. (Please see the back cover of this brochure for wood grain example.)

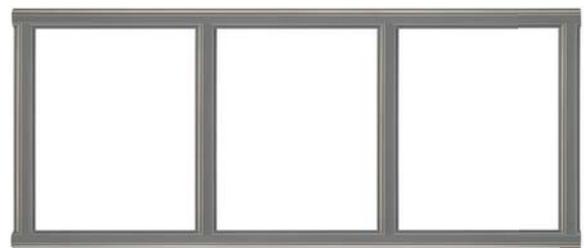

"Hundreds of Standard Colours and Ten Stunning Wood Grains. Give you endless design possibilities."

Interior and Exterior Grills

Exterior Grills

Create a luxurious and seemingly custom built door system by adding SDL's. Recreate the look of individual glass panes incorporated into your sashes. Even down to the "shadow bar" used to match both the glass's spacer bar and your own particular grill pattern. If you choose colour or wood grain, all SDL orders are coated along with your door. In terms of elegance and luxury, SDL only enhance the look of **CAPRI 2.0**.

(Simulated divided tiles)

Interior Grills

- ▶ ¼ x 5/8 Rectangular or Contour Grills are available in a variety of solid and split coloured paint finishes and various metallic finishes.
- ▶ ¼ x 5/16 slim line (square) and Pencil (round) Grilles are available in Solid White and a wide variety of metallic colours.

(Custom Grill Patterns are available. Surcharges may apply. Consult your dealer.)

"Simply, a beautiful idea."

CREATE YOUR OWN **CAPRI 2.0**

Hardware and Secondary Security Standard "Milano" Grip set and Twin-Point Lock

This elegant Euro-style handle and twin point lock with anti-slam feature is standard on the **CAPRI 2.0**. The Milano series comes in White, Black, Sandalwood, Beige and Pebble. Split colour handsets are available.

The "Verona" Grip set Series (Optional Extra)

The Verona Series comes with the same twin-point lock as our standard "Milano" Series. This series of locks comes in 7 stunning metallic finishes that will compliment any décor. (Oil Rubbed Bronze is available but not pictured.)

Deluxe "Premiere" Screen

The heavy duty "Premiere" screen boasts an elegantly robust 3" frame that integrates perfectly with the wider sash on the **CAPRI 2.0**, an integral lock with a solid zinc keeper and self-adjusting Metal rollers. "Premiere" adds a touch of elegance! All of our screens, Standard and Upgrade are available with Pet Mesh or Better View screening.

Retractable Screens are also available.

Transoms and Sidelites

Our Transoms and Sidelites are made at the same frame depth as the **CAPRI 2.0**. This allows for seamless integration with your sliding door. These transoms and sidelites feature the same Endur IG and glazing options as the Capri 2.0. (Mini-blinds are not available.)

Transoms and sidelites are also an ideal and economic solution to non-standard openings.

Endur IG

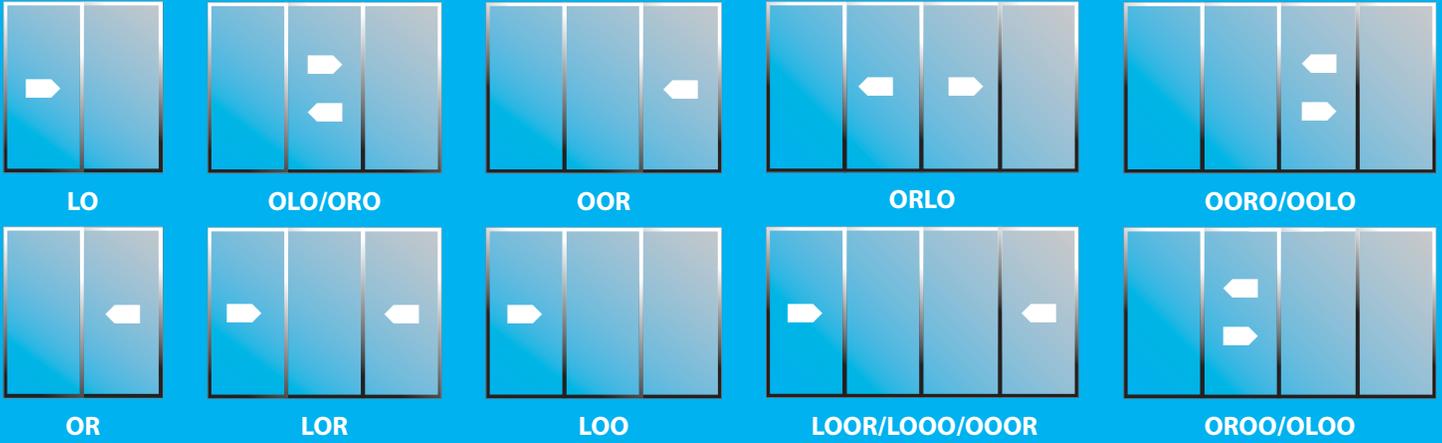

The **Endur IG** by **Cardinal** is the industry's best combination of longevity and thermal efficiency. The longevity is unsurpassed. The longest manufacturer's warranty in the industry at 20 years. We are so confident in this unit that we have extended this warranty to Lifetime.

Industry's Best Sealed Unit

The **Endur IG** unit compares very favorably to polymer based warm edge spacers as far as thermal efficiency and is far superior as far as unit longevity is concerned.
