When they were introduced on the market years ago, the Executive Panel series sent ashockwave in the steel door industry, and they have become more popular every year since. These "high definition" panels, inspired by the mouldings used on traditional wooden doors, can be used with decorative glass panels, in any number of combinations. Our series sidelite joined to an Executive Door can add style to any house.

Note:  
Aluminum frame must be used when paint is applied in order to respect the warranty.
